SUBJECT INDEX - VOLUME 35

17α-Acetoxyprogesterone derivatives, synthesis of, 481
Adenosine 3',5'-monophosphate, in gonadotropin stimulation, 653
Adrenal steroidogenesis, inhibition by danazol, 251
Affinity alkylation, competitive inhibition of, with 3α, 20β-hydroxysteroid dehydrogenase, 6β-bromoacetoxyprogesterone, and 5α-dihydrotestosterone, 111
Agave lecheguilla, new sterols from, 503
Aging AXC, androgen regulation of androgen receptor content and distribution in the ventral and dorsolateral prostates of, 157
Aging leydig cell, gonadotropin stimulation in, 653
5-Alpha-reduced androgens, in immature rat testes, 621
Andrenal activity, during hepatocarcinogenesis, 489
Androgen, on the estrogen receptor, 315
Androgen, on vitellogenin, in fish, 315
Androgen receptors, determination of, 389
Androgen regulation, of androgen receptor content and distribution in the ventral and dorsolateral prostates of aging AXC rats, 157
Androgens, and uterine motility, 633
Androgens, granulosa cells source of, 53
5α-Androstane-3β,6α,17β-triol, metabolite of the canine prostate, 139
5α-Androstane-3β,7α,17β-triol, metabolite of the canine prostate, 139
A-Nor-sterols, isolation of, 295
Antiglucocorticoid, synthesis of, 265
Antigonadotropic activities, of 11-ketoestrones, 335
Antiprogestins, synthesis of, 481
Antral fluid, steroidogenesis, 643
Aromatase system, inhibition of, 533
AY-9944, effect on cholesterol biosynthesis, 665
Azathiasteroids, synthesis of, 599

Bile acids, bacterial biotransformation of, 103
Bile acids, 25-hydroxylated bile alcohols as precursors of, 439
Bile alcohols, in cerebrotendinous xanthomatosis (CTX) patients, 439
Bromoandrostenedione, inhibition of estrogen synthesis by, 533

C-13 NMR assignments, of spironolactone, 119
17β-Carboxamide derivatives, synthesis of, 265
7-Carboxymethyl derivatives, for antigens, 235
Carboxymethyl derivatives, 7α and 7β, of 17-hydroxyprogesterone and 11-deoxycortisol, synthesis and immunogenic properties, 65
Catechol estrogen formation, by tyrosinase, 579
Cholesta-5,8-dien-3β-ol, identification of in rats, 665
Cholestan-2- and -3-one, α-methyl and methoxyl, CD spectra of, 189
5β-Cholestane-3α,7α,12α,25-tetrol, facial preparation of, 439
Cholesterol biosynthesis, effect of AY-9944 upon, 665
Cholesterol 7α-hydroxylase, effect of superoxide dismutase on, 459
Cholesterol side chain cleavage linked cytochrome P-450, 543
Cholic acid derivatives, synthesis of, 405
Chrysophyte, isolation of new C_{30} sterols from, 219
Circular dichroism and octant rules, 189
Circular dichroism, of keto bile acids, 81
Corticosterone, pulsatile response with, 305

Cortisol, effects of flutamide on metabolism of, 209
Cortisol synthesis, utilization of placental substrates for, 591
Cytochrome P-450, inhibition by danazol, 251
Cytochrome P-450 inhibitors, 543

Danazol, inhibition of human adrenal, 251
26(29)-Dehydroaplysterol, isolation of, 707
24-Dehydrocholecalciferol, synthesis of, 329
Dehydroepiandrosterone antigen, 235
7α-Dehydroxylase, in *Eubacterium* species, bile acid induction specificity of, 103
8,14-Dienes, heterocyclic, 1,4 addition to, 133
3α,7α-Dihydroxy-5β-androstan-17-one, chemical synthesis and pyrogenic activity, 281
17α,21-Dihydroxy-4-pregnen-3,20-dione, synthesis and immunogenic properties, 65
1,25-Dihydroxy-5,6-*trans*-vitamin D_3, mode of action, 419
1,25-Dihydroxyvitamin D_3, mode of action, 419
24,26-Dimethylcholesta-5,26-dien-3β-ol, isolation of, 707

Enzymeimmunoassay, for norethisterone, 445
Enzymeimmunoassay, of testosterone, 89
Estradiol, effect upon 25-hydroxycholecalciferol binding protein, 1
Estrogen and progesterone receptors, in monkey endometrium, 471
Estrogen biosynthesis, in human neoplastic breast tissue, 533
Estrogen synthesis, by mouse adrenal gland, 381
Estrogenic activities, of 11-ketoestrones, 335
Estrogens, levels in postmenopausal women, 179
Estrone sulfate, levels in postmenopausal women, 179

Fibroblasts, androgen receptors in, 389
Fisher indole reaction, in azathiasteroid synthesis, 599
Fluorescence-labelled derivatives, of testosterone, 611
Flutamide (4'-nitro-3'-fluoromethylisobutyranilide), effects on cortisol metabolism, 209

Glucosiduronate formation, by metabolites of androstenedione in human breast tumor homogenates, 685
Gonadotropin, and prolactin effects on luteal cell steroidogenesis, 523
Granulosa cells, source of follicular androgens in, 53

Hamster, progesterone receptor, binding specificity, 697
Hepatocarcinogenesis, adrenal activity during, 489
Heteroaromatic steroidal 8,14-dienes, 1,4 addition of hydrogen to, 133
Heterocyclic steroids, mass spectrometry of, 9
Hormone levels, adrenal, 489
Human breast cancer, androgen and estrogen metabolism *in vitro* in, 685
Human endometrial cancer cell, progesterone metabolism in, 21
Human oocyte-cumulus cell complex, steroidogenesis in, 643
3α-Hydroxy-5β-androstan-7,17-dione, chemical synthesis and pyrogenic activity of, 281
17β-Hydroxyandrost-4-en-3-one, enzymeimmunoassay of, 89
25 Hydroxycholecalciferol binding, effect of estradiol upon, 1

18-Hydroxycorticosterone, radioimmunoassay of, 427
3-Hydroxyestra-1,3,5(10)-triene-11,17-dione, 335
3-Hydroxy-9β-estra-1,3,5(10)-triene-11,17-dione, 335
17β-Hydroxy-17α-ethnyl-4-estren-3-one, enzymeimmunoassay, 445
3-Hydroxymethyl-A-nor-5α-gorgostane, isolation of, 295
17α-Hydroxy-4-pregnen-3,20-dione, synthesis and immunogenic properties, 65
3α, 20β-Hydroxysteroid dehydrogenase, bifunctional activity of, at a single active site, 111

Immature rats testes, measurements of testosterone and androgens in, 621
Individual rats, corticosterone response in, 305
Intestinal receptor, [for $1,25(OH)_2D_3$], 419
Ionic hydrogenation, of heteroaromatic steroidal 8,14-dienes, 133

Keto-bile acids, CD studies of, 81

Luteal cells, progesterone production in, 43

Mammary tumorigenesis, in mouse, 381
Marine sterols, isolation from *Petrosia Ficiformis*, 707
Mass spectral fragmentation of bile acid analogs, 405
Mass spectral studies, of thiasteroids, 9
Megestrol acetate, synthesis of, 511
Menstrual cycle, in monkeys, 471
Metabolism of estradiol, by tyrosinase and uterine peroxidase, 579
(±)-3-Methoxy-6-aza-12-thia-12-dioxo-B-nor-14β-estra-1,3,5(10),8-tetraen-α17-ol, synthesis of, 599
Monkey endometrium, estrogen and progesterone receptors in, 471
Monkeys, luteal cells from cynomolgus, 523
Mouse adrenal gland, synthesis of estrogen, 381
Myometrial, inhibition of, by androgens, 633

B-Nor-6-aza-12-thia-3-methoxyestra-1,3,5(10),8-tetraene-12-dioxide-17-ol, synthesis of, 599
B-Nor-6-aza-12-thiasteroid, Fischer indole synthesis of, 599

Octant rule, 189
Oocyte maturation and steroidogenesis, 643
Oximes, radioimmunoassay, 427
3-(3-Oxo-7α-acetylthio-17β-hydroxy-4-androsten-17α-yl) proponic acid γ-lactone and derivatives, C-13 NMR studies of, 119

Petrosterol, isolation of, 707
Postmenopausal women, plasma estrone levels in, 179
Pregna-4,6-diene-3,20-dione,6-methyl-17α-acetoxy, synthesis of, 511
Primates, cortisol synthesis in, 591
Progesterone antigen, 235
Progesterone metabolism, by isolated sertoli cells, 561
Progesterone metabolism, in HEC cells, 21
Progesterone production, after exposure to trypsin, 43
Progesterone, production by luteal cells, 523
Progesterone receptor, 481

Progesterone receptor binding, molecular structure, 697
Progesterone synthesis, in primates, 591
24ξ-n-Propylcholesterol, isolation of, 219
(24E)-24n-Propylidenecholesterol, isolation of, 219
Prostate, androgen regulation of androgen receptor content and distribution in the ventral and dorsolateral of, 157
Pulsatile response, with corticosterone, 305

Quassinoids, synthesis of, 405

Radioactive steroids, recrystallization of, 351
Radioimmunoassay, of 18-hydroxycorticosterone, 427
Recrystallization, of radioactive steroids, 351

Saliva, enzymeimmunoassay of testosterone in, 89
Saliva, radioimmunoassay for norethisterone in, 445
Sertoli cell, steroidogenesis in vitro, 561
Sponge stylotella agminata, isolation of sterols from, 295
Stereochemistry at C/D ring junction from mass spectral studies, 9
Steroid oxidoreductase, bifunctional activity of, at a single active site, 111
Steroid receptors, in fish liver, 315
Steroid-17-spiro-oxazolidines, synthesis of, 361
Steroids, D-homo, synthesis of, 511
(25R)-Spirost-5-ene-2α,3β-diol, isolation of, 503
(25R)-5β-Spirostane-3β,6α-diol, isolation of, 503
Spiro-steroids, synthesis of, 361
Superoxide anion, in swine, 459
Swine, superoxide effects in, 459

Testicular androgens, in immature rats, 621
Testicular steroidogenesis, 561
Testololactone, inhibition of estrogen synthesis by, 533
Testosterone antigen, 235
Testosterone, fluorescence-labelled derivatives of, 611
Testosterone, in gonadotropin stimulation, 653
Testosterone, 5α and 5β reduced metabolites, upon uterine activity, 633
Tritium release, from [2-^{3}H]- and [4-^{3}H]estradiol by uterine mitochondria, 579
Trypsin, progesterone production after exposure to, 43

Uterus, effect of estradiol upon 25-hydroxycholecalciferol binding protein in mouse, 1
Uterus, progesterone receptor, hamster, 697

X-ray crystallographic data, on 11-ketoestrones, 335
